

Privacy Policy Template

Posting a privacy policy helps visitors and related service providers understand how your site collects visitor data. It is something required in some locations (like Europe and California) and by some services (like Google and Meta).

This template is based on the information provided by Squarespace ([here](#)). These are sample messages you can mix and match to build your own policy. Feel free to change any part and pay particular attention to the green highlighted parts (as those should either be deleted or updated to be relevant to your business).

Disclaimer: The information in this template is for information purposes only and doesn't constitute legal advice. We recommend working with a legal expert for specific guidance about your website or business, and to understand your local regulations regarding data privacy.
